

# 21<sup>st</sup> IUVSTA Summer School on Physics at Nanoscale

3rd - 7th June 2024

Skalský Dvůr, Czech Republic

<https://iss.fzu.cz/>

## Scientific Programme

- Science and technology with the emphasis on processes, characterization and physical properties of materials and structures at nanoscale.
- from the fundamental research to the vital application areas:
- Electronics, optoelectronics, nanophotonics, renewable energy, catalysis, life sciences, and quantum technologies
